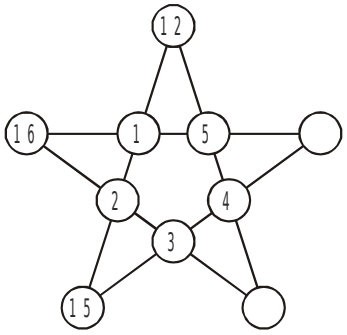
RAZ. MATEMATICO

TERCERO DE PRIMARIA

Estrellas Mágicas

En la estrella, la suma de cuatro números en línea es la misma. Complétala.



- Buscamos una línea con datos completos y hallamos la suma:

12 + 1 + 2 + 15 = 30

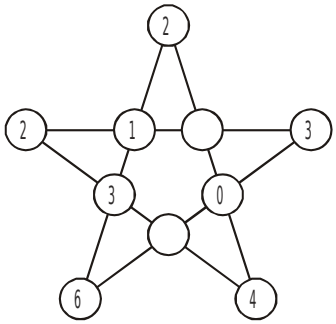
- Completamos las demás líneas:

30 - (16 + 1 + 5)
30 - 22 = 8

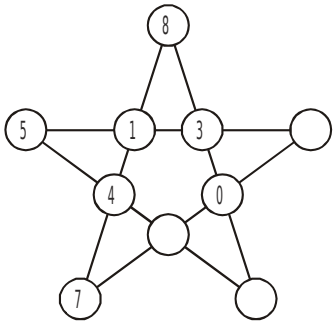
30 - (12 + 5 + 4)
30 - 21 = 9

I. AHORA HAZLO TÚ:

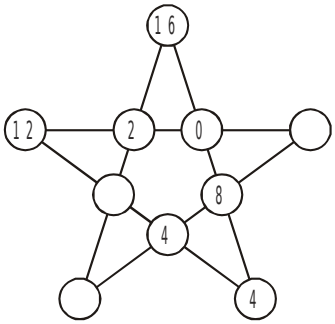
1. Halla la suma de una línea y completa los números que faltan:



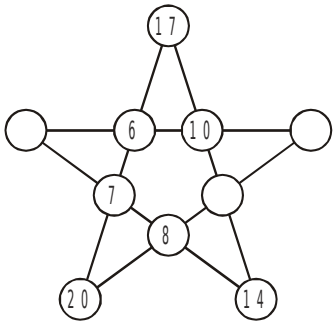
Suma: _____



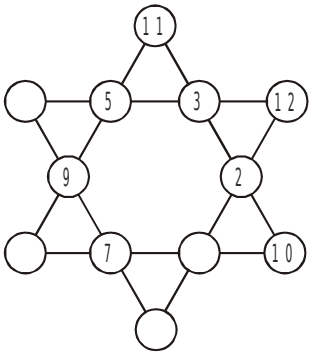
Suma: _____



Suma: _____



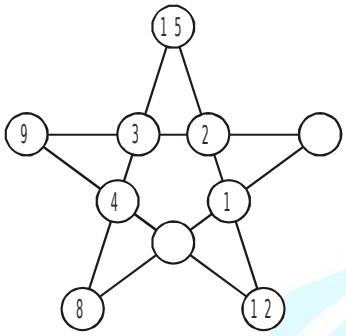
Suma: _____



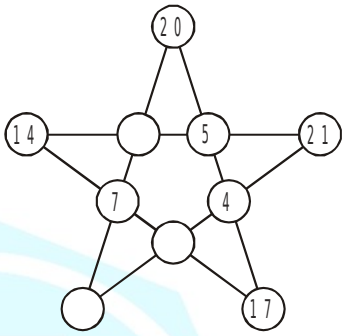
Suma: _____

Retos para el hogar

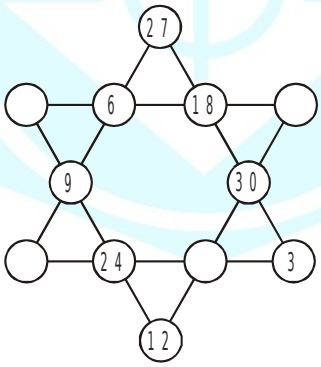
1. Descubre la suma y anota los números que faltan en cada estrella mágica.



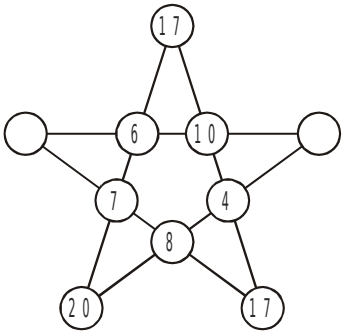
Suma: _____



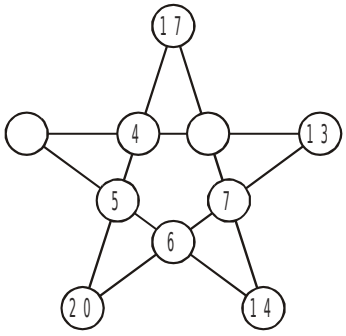
Suma: _____



Suma: _____

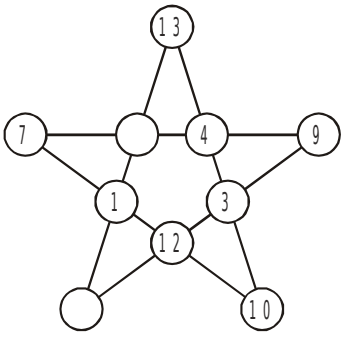


Suma: _____

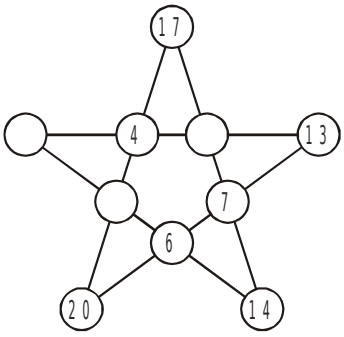


Suma: _____

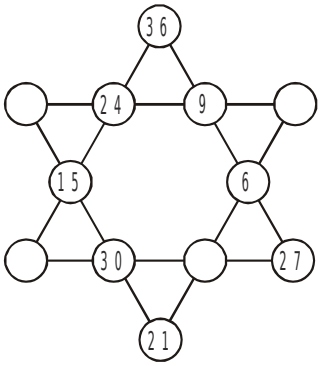
2. Descubre la suma y anota los números que faltan en cada estrella mágica.



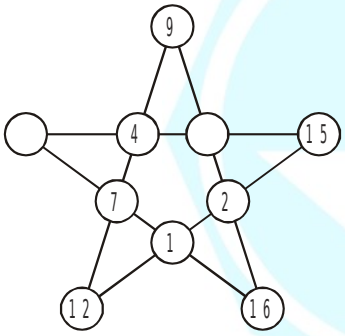
Suma: _____



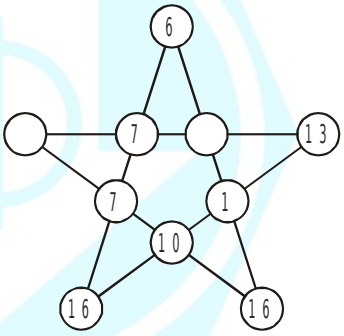
Suma: _____



Suma: _____

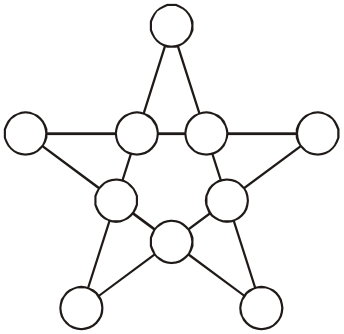


Suma: _____



Suma: _____

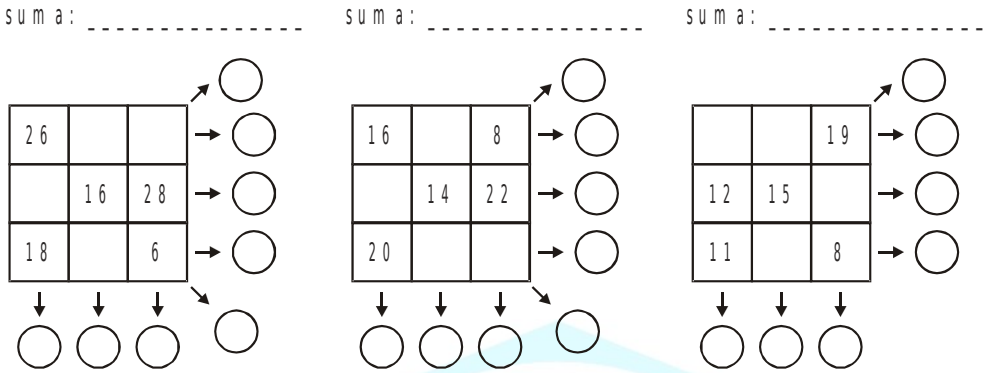
3. Crea tu estrella mágica.



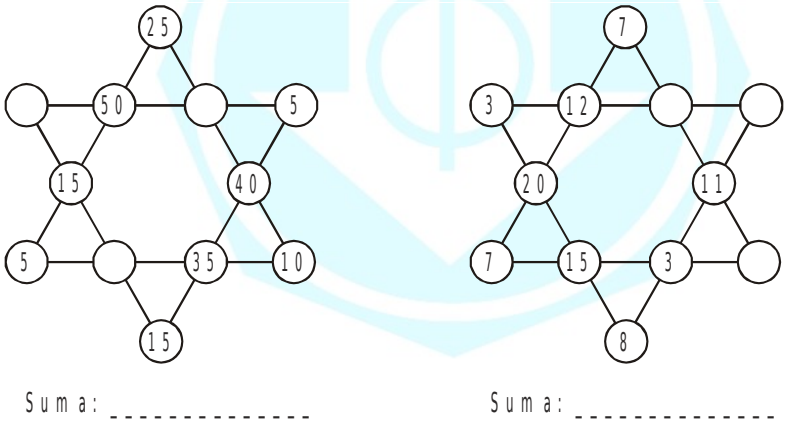
Suma: _____

Mis logros

1. Halla la suma de una línea y completa los números que faltan:



2. Descubre la suma y anota los números que faltan en cada estrella mágica.



3. Demuestra tu creatividad: solamente utilizando los números 2; 4; 6; 8; 10; 12; 14; 16; 18; crea tu cuadrado mágico cuya suma sea 30. Te ayudo colocando 3 valores, **¡!VAMOS TÚ PUEDES!!**
